Index by Library Type	68

INTRODUCTION

The seventh edition of the Directory of Libraries in Manitoba 1989 is an update of the 1985-86 publication. The Directory lists all libraries in Manitoba excluding school libraries which are listed in the Directory of School Media Personnel issued by Manitoba Education and Training.

Arrangement:

The Directory is organized into three sections. The first is an alphabetical listing of all libraries by name. Each entry is coded in the right hand margin to indicate the type of library. The second section contains a listing of all library related associations in the province. The third contains indexes that provide access geographically, by subject and by type of library.

Information included:

In most cases, entries will contain the following information:

- the name of the sponsoring organization and the name of the library including address, postal code, telephone, telex, FAX, ENVOY, the person in charge, and the number of staff.
- on-line searching services
- collection information
- language holdings
- participation in interlibrary loan and ILL Symbol
- subject specialities
- population served

Sources of information:

Survey forms were sent out to all libraries. Those included in the last publication were asked to update their entries.

Public Library Services is grateful to all those libraries who so generously contributed information for inclusion in this publication.

If any errors or omissions are noted please contact:
